Add Email to Gmail (Mobile App)

- Open the **Gmail App** on your phone.
- Tap your profile picture (top right) → "**Add another account**".
- Choose "**Other**" from the email providers list.
- Enter your chosen email (e.g., management@orga4soft.com) and tap **Next**.
- Select **Personal (IMAP)**.
- Enter the exact password for that specific email and tap **Next**.
- **Incoming Server:** mail.orga4soft.com | Port: 993 (SSL/TLS)
- **Outgoing Server:** mail.orga4soft.com | Port: 465 (SSL/TLS)
- Tap **Next** to finish setup.

Add Email to Gmail (Computer/Web)

- Open Gmail in your browser and click the **Gear icon**  → **See all settings**.
- Go to the **Accounts and Import** tab.
- In the "Check mail from other accounts" section, click **Add a mail account**.
- Enter your chosen email address and click **Next**.
- Select **Import emails from my other account (POP3)**.
- **Username:** Your full email | **Password:** The exact email password
- **POP Server:** mail.orga4soft.com | Port: 995
- Check: *"Always use a secure connection (SSL) when retrieving mail"*, then click **Add Account**.
- When asked to send mail as this address, choose **Yes** and use SMTP Server mail.orga4soft.com, Port 465 (SSL).
